

John S. Truhan, P.E., P.P., CME, Fellow ASCE Trustee of InfoAge

Since 1983, John S. Truhan has been the President and Founder of John S. Truhan Consulting Engineers, Inc. which has an accumulation of expertise in all aspects of Civil Engineering including land development, municipal and state projects. He has served as Municipal, Planning Board and Board of Adjustment Engineer for various municipalities throughout the State of New Jersey. Several projects successfully completed consist of the following: road paving, potable water systems (water distribution, groundwater wells, treatment and storage), sanitary sewer systems, landfill closure, Environmental Impact Statements, NJDEP Letters of Interpretation for Freshwater Wetlands, State of New Jersey Pinelands Commission Letters of Interpretation for Freshwater Wetlands, Stormwater Management Facilities, Bulkheads, and Municipal Master Plan Development. Recent State of New Jersey projects include feasibility studies for school expansions for the School Construction Corporation (Asbury Park, Long Branch and Trenton).

Truhan has also been routinely involved with site engineering for large residential developments, as well as single buildings and complexes. Large developments which John S. Truhan Consulting Engineers, Inc. has engineered include: Continental Properties, U.S. Homes Corporation, Kara Homes, Roseland Properties, Atlantic Realty, The Jerald Development Group, to name a few.

- American Society of Civil Engineers-Fellow
