

Louis M. Lifrieri

Emeritus Trustee

As the former Executive Vice President and Group Manager of the C4ISR Systems Group at CACI Technologies Inc., Mr. Lifrieri provided the technical, managerial, fiscal, and administrative leadership to a group of 475 engineers, technicians, and support personnel for C4ISR Systems prototyping development with annual sales of approximately \$250M.

Mr. Lifrieri, as Director of NJ Operations, was the cornerstone of the successful transition of CACI support from Vint Hill Farms Station, VA to I2WD, Fort Monmouth, NJ in January of 1997. Mr. Lifrieri held various community board member positions to include Ft Monmouth local chapters of the AUSA and AOC professional organizations.

Mr. Lifrieri's prior experience includes 11 years with the Army in Military Intelligence, to include I2WD and its predecessor organizations. His military assignments included Systems Acquisition, Tactical, and National Intelligence environments.

Mr. Lifrieri's 30 year technical background concentrates on the design, integration, installation, operation, documentation, maintenance, testing, and upgrades of remoted RF collection, processing, and forwarding Intelligence and Electronic Warfare systems.

Mr. Lifrieri has served on the InfoAge Board of Trustees since 2006 and currently resides in Oceanport, NJ with his wife Linda, his daughter Keira and their son, Louis Michael.
